## Course Description Information

Each MacEwan University course listed in this section has information that all students need to know. The legend provides an explanation for each element included in the course description.

<b>NURS 252</b>	→	<b>COURSE CODE</b>
<b>Health Assessment Across the Lifespan</b>	→	<b>COURSE NAME</b>
<b>4 Credits Weekly (3-3-0)</b>	→	<b>COURSE HOURS</b>
<p>Students develop knowledge, skills and attributes for a holistic health assessment of individuals across the lifespan. Health history taking, physical and contextual assessments, information retrieval and data appraisal, communication techniques, and documentation of findings are incorporated into assessment of health. Using a socio-environmental approach, consideration is given to alterations in health and evaluation of nursing, medical and pharmacological interventions, as well as development of health promotion strategies. Students integrate the unique and shared experiences of patients/clients. Students develop and demonstrate skills in history taking, interviewing and physical examination with individuals. Critical thinking and clinical reasoning are developed through participation in laboratory, classroom and simulation activities.</p> <p><i>Prerequisites: Minimum grade of C- in <a href="#">HLST 154</a>, and either <a href="#">NURS 175</a> or <a href="#">PNRS 152</a>.</i></p> <p><i>Prerequisites or Co-Requisites: <a href="#">HLSC 220</a> and <a href="#">HLSC 222</a>.</i></p>

### Course Hours

Course hours are represented using either a weekly or total hour format. Weekly hour format is based on a regular fall or winter term as indicated in the Academic Schedule. Both formats use the same three digits – lecture, lab, and other course hours. The method of display – “Weekly” or “Total” is identified before the hours as shown below:

Weekly (a-b-c) or Total (a-b-c):

- Hours assigned to lecture
- Hours assigned to lab
- Hours assigned to other forms of instruction such as seminar, clinical, co-op placement, field placement, practicum, and/or research hours

Course hours do not reflect the offering pattern(s) for specific courses in a given term. Student timetables, available on class registration, clearly indicate the date, time and duration of classes.

Normally, a 3 credit course in the fall or winter term is offered over a 13 week instructional period, for 3 hours a week. The most common offering patterns for courses in these terms are 1 hour per day on a Monday, Wednesday and Friday (MWF) pattern, or 1.5 hours per day on a Tuesday, Thursday (TR) pattern. Courses with lab components will have additional weekly hours. Courses offered over a shorter period of time will be scheduled for more hours per week. While this describes the duration of many classes, there are exceptions such as clinical placements and practica. Student timetables, available on class registration clearly indicate date, time and duration of classes.
