Bachelor of Applied Human Service Administration (BAHSA) is a distance-delivered program designed for individuals working in the health or human service field who hold, or strive to hold, supervisory or management positions. Distance study makes the program accessible to students regardless of geographic location and provides the flexibility to balance studies with professional and family responsibilities. Students access their course material and readings online and become part of a virtual community of learners. Faculty guide student learning through online class discussions and activities.

The curriculum includes theory in administration, with an emphasis on leadership, supervision and management. Studies include human, financial, and physical resource management; managing change; communication; community-based practice; research practices; and trend and issue analysis. Assignments are practical in nature and generally involve the application of theory to the student's workplace. Building on a previous diploma or degree, the program consists of ten 3-credit theory courses and two 15-credit directed field studies. Students may complete the directed field studies in their current workplace or in an appropriate agency. Study may be full or part-time. Students have six years to complete the program; however, it may be completed in as little as three years.

Career Potential

BAHSA graduates are employed in managerial roles in a wide variety of agencies including early learning, child and youth care, community living, human ecology, addictions, corrections, social work, rehabilitation, non-profit/voluntary sector, health care, gerontology and related fields. BAHSA graduates have the knowledge, management skills and confidence to manage a dynamic staff of practitioners, work with boards, be an effective human service leader, and still serve the clients and families at the heart of their organization.
