

# MEDICAL - OFFICE ASSISTANT CERTIFICATE

## Overview

The medical major provides students with the computer and medical software skills necessary for today's health care field. Students will receive a solid foundation in medical and pharmaceutical terminology, patient care, and medical office procedures which will prepare graduates for a variety of medical office assistant positions.

## Career Potential

Graduates work as medical office assistants, medical receptionists in medical offices, clinics, hospitals and government agencies, as well as general areas such as insurance.

Today's office assistants have strong technical skills to support other staff in a digital office. In addition, office assistants are involved in managing the organizational affairs of their areas that include handling public enquiries, managing computer and paper files, organizing schedules, arranging meetings of senior staff, as well as providing strong customer service and problem-solving skills.

The Office Assistant program is ideal as a foundation for other careers or as a complement to prior training and experience. It runs from September to June plus a 4 week field placement. It is a comprehensive program that offers students the opportunity to specialize in one of the following three majors:

- Administrative
- Legal
- Medical

The program is well suited for individuals with strong organizational skills, familiarity with computers and software, a professional manner, and excellent verbal and written communication skills. Graduates are often required to work independently and in a team environment, so students who are positive and self-motivated do exceptionally well. The program has built a solid reputation with employers, resulting in a high job placement rate.
