

GENDER STUDIES MINOR

For Bachelor of Arts and Bachelor of Science

Gender studies explores how history, colonialism, the media, and other social institutions create and normalize gendered and sexual identities. Students study how gender, sexuality, and their intersections link to big issues of our time, including poverty, violence, health, and social inequality.

The Gender Studies Minor requires 18 senior-level credits with a minimum of six credits at the 300- or 400- level.

To ensure the interdisciplinarity of the program, students would not be allowed to fulfill minor requirements with more than two courses from within one discipline or three GEND courses.
