

POST-BACCALAUREATE CERTIFICATE IN BEHAVIOUR ANALYSIS

The Post-Baccalaureate Certificate in Behaviour Analysis is a comprehensive 24-credit program that imparts foundational principles of behaviour. It equips individuals with the knowledge, skills, and practical experience to make meaningful impacts on others' lives. The applied behaviour analysis (ABA) approach is widely recognized for its effectiveness in various fields, including autism and other developmental disorders, education, gerontology, behavioural pediatrics, brain injury rehabilitation, addictions, child maltreatment intervention and prevention, sports psychology, and organizational behaviour.

This credential builds on an undergraduate degree and meets the course requirements stipulated by the Association for Behavior Analysis International (ABAI) and the Behavior Analyst Certification Board (BACB) for individuals aspiring to become a Board Certified Assistant Behaviour Analyst (BCaBA).

Program Regulations

Students are strongly encouraged to seek advice from academic advisors about academic planning to complete program requirements at MacEwan University.

Academic Residency - Credit Requirements

Students with a previous MacEwan University credential must complete a minimum of nine credits upon admission to the Post-Baccalaureate

Certificate in Behaviour Analysis. Students with a baccalaureate degree from another post-secondary institution must complete a minimum of 12 additional MacEwan University credits applicable to the Post-Baccalaureate Certificate in Behaviour Analysis. Nine of these credits must be completed while students are enrolled in the program. This credit requirement also applies to students who began their studies at MacEwan University and completed a credential at another institution.

Graduation Grade Point Average

As part of the Graduation Grade Point Average regulation, Post-Baccalaureate Certificate in Behaviour Analysis students must obtain an overall GGPA of 2.0 or higher to graduate. A minimum grade of C is required for all courses in the program.

Progression of Studies

Students are responsible for ensuring they meet the prerequisite and/or co-requisite requirements as noted on all courses that may fulfil the Post-Baccalaureate Certificate in Behaviour Analysis program requirements.

English Course Requirement

Students are required to take three credits of English either within this program or as part of their previous diploma or degree.
